This is truly a testament to hard work and outstanding service you have continued to provide over the past years. You are part of a much selected group of businesses recognized by the people of Uganda for their business excellence over multiple years. The people's choice award (pca) was established in 2009 and is considered the most distinguished award for business excellence in Uganda. Muyz plus international conducts annual statistical research, ensuring rigorous assessment of unbiased opinions, perceptions and service expectations for each individual market. The results are clear people's choice has no parallel in the country of Uganda.

The business challenge in today's economy is to communicate a distinctive, genuine and simple message that breaks through the unprecedented amount of information targeting to consumers. People's choice award offers a unique opportunity exclusively to the top-ranking businesses in their respective industries.
