

STEEL OF UGANDA

Africa's Most Diversified & Integrated
Steel Plant Covering All 4 Verticals of Steel

About Us

Tembo Steels stands as a testament to Uganda's industrial transformation, leading the way since its inception in 2000. By championing sustainability, innovation, and self-reliance, the company has set new benchmarks in steel production, not only within Uganda but across the African continent. Through steadfast support of the Buy Uganda Build Uganda initiative, Tembo Steels has played a crucial role in reducing dependence on imported steel, empowering local industries, and fueling regional economic progress.

Among its many achievements, Tembo Steels became the world's first to manufacture low-carbon steel directly from cast iron, marking a pivotal advancement toward environmentally friendly production. The company has also pioneered the creation of ultra-thin 0.7mm hot-rolled sheets using continuous configuration techniques, and introduced the world's lightest structural sections through direct rolling. These innovations have firmly established Tembo Steels as a leader in sustainable, high-quality steel manufacturing, inspiring growth across Africa's industrial landscape.

Tembo Steels stands at the forefront of green steel manufacturing, demonstrating a steadfast commitment to environmental responsibility. Through continuous research and development, the company has refined its steel-making processes, embracing innovative technologies that dramatically reduce carbon emissions. By prioritizing sustainable and cost-effective methods, Tembo Steels has successfully achieved a remarkable 70% reduction in CO2 emissions during primary steel production. This achievement positions the company as a trailblazer in eco-friendly manufacturing, setting new benchmarks for the global steel industry.

Green Steel Making

Tembo leverages synergistic approach of Environmentally Friendly practices proven to reduce CO2 emissions up to 70% in primary steelmaking.

Primary Steel Making

The only company in Africa to Manufacture HRC, Structural Steel, Wire Rod & TMT from Iron Ore.

Technologically Advanced

World's Lightest Structural Steel & 0.6mm HRC through direct rolling in continuous configuration.
World's first convertor to produce low carbon steel from Cast Iron for Africa

100% MADE IN UGANDA

The Most
Diversified
& Integrated Steel
Company in Africa
covering all Four
verticals of Steel

- **Green Steel Making:**

Tembo leverages synergistic approach of Environmentally Friendly practices proven to reduce CO2 emissions up to 70% in primary steelmaking.

- **The only company in Africa to:**

Manufacture HRC, Structural Steel, Wire Rod & TMT from Iron Ore.

- **The only company to manufacture:**

World's Lightest Structural Steel & 0.6mm HRC through direct rolling in continuous configuration.

- **Largest product portfolio through integrated primary route in Africa.**

FIRST IN The World

adopting 100% Green Steel Composite process in Primary Steel making for all four verticals

FIRST IN The World

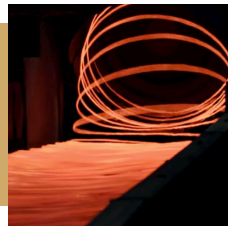

to produce low carbon steel from Cast Iron. - 2003 as an Alternative Raw Material For Africa.

ALL PRODUCTS - 100% MADE IN UGANDA USING VIRGIN IRON ORE

First in **The Continent** to produce TMT REBARS through TC Rolling -2017

Ultra-Premium TMX Rebars through Virgin Iron Ore

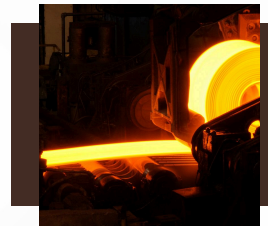

First in **The Continent** to produce 5mm Wire Rod -2014

Using Primary Route Through Direct Rolling

First in **The World** to produce the Lightest Structural sections -2007

From Continuous Configuration From Direct Rolling.

First in **The World** to produce 0.7mm Hot Rolled Sheet (HRC) -2008

From Continuous Configuration From Direct Rolling.

• Green Steel Making:

Tembo leverages synergistic approach of Environmentally Friendly practices, proven to reduce CO2 emissions up to 70% in primary steelmaking.

• The only company in Africa to:

Manufacture HRC, Structural Steel, Wire Rod & TMT from Iron Ore.

LARGEST Product Portfolio

Through Integrated Primary Route In Africa.
